

135268 to 135403—Continued

135355. No. 5016. From Pulikomri, November 4, 1939. Fruit 24 by 10 inches; rind smooth, unribbed, handsome salmon pink with green belly; flesh $2\frac{1}{2}$ inches thick, of good texture, and sweet.

135356 to 135359. Collected in Kabul, November 1939.

135356. No. 5037. Fruit flattened, 11 by 7 inches; rind orange red with obscure rib lines of cream, smooth; flesh orange, not very sweet, but of good texture.

135357. No. 5048. Fruit 20 by 10 inches; rind creamy white, smooth; flesh yellow, 3 inches thick, insipid.

135358. No. 5049. Fruit globose, 11 inches in diameter; rind creamy white, with indented ribs; flesh yellow, 2 inches thick, insipid.

135359. No. 5054. Fruit elongate, 24 by 10 inches, rind orange red with narrow-ribbed stripes and splashes of cream; flesh orange yellow; $1\frac{3}{4}$ inches thick, insipid.

135360 to 135376. CUCURBITA MOSCHATA Duchesne. Cucurbitaceae. Cushaw.

135360. No. 4618. *Kadu*. From Kala Sarkari, November 7, 1939. Fruit slightly flattened, 1 foot across; rind orange red, blotched with green, irregular indented ribs, almost white; flesh yellow, $2\frac{1}{4}$ inches thick.

135361. No. 4636. *Pilau Kadu*. From Kala Sarkari, November 8, 1939. Fruit elongated, 16 inches in length; rind orange red, blotched with layers of small, paler, orange-red blotches, deep ribs; flesh yellow, $1\frac{1}{2}$ inches thick, sweet, fiberless; neck half solid.

135362 to 135364. Collected in Tukzar, September 14 and 15, 1939.

135362. No. 4699. Fruit pear-shaped, 10 inches in length; rind orange, spotted with yellow; flesh yellow, 1 inch thick, insipid.

135363. No. 4718. *Mekaekidu*. Fruit rounded elongate, 12 inches in length; rind ash gray, marbled with pink; flesh yellowish orange, 2 inches thick, insipid.

135364. No. 4722. Fruit elongate, 10 inches in length; rind irregular with indented ribs, pink buff, mottled more or less with green; flesh of bowl yellow, 1 inch thick, insipid.

135365 to 135368. Collected in Khwajaebrehajalak, October 17, 1939, at 7,000 feet altitude.

135365. No. 4902. Fruit somewhat flattened, 8 inches in length; rind orange red; flesh bright orange, $1\frac{1}{2}$ inches thick, of fair quality.

135366. No. 4903. *Haluakadu*. Fruit pear-shaped, 10 inches in length; rind ribbed, pink buff, spotted with a paler pink buff; orange, $1\frac{1}{2}$ inches thick, sweet, and of good texture.

135367. No. 4905. Fruit flattened, 6 by 10 inches; rind deeply ribbed, handsomely splashed and dotted with grass green and yellow buff; flesh orange, 3 inches thick, of fair quality.

135368. No. 4909. Fruit somewhat flattened, 8 inches in length; rind black green; flesh orange, $1\frac{1}{2}$ inches thick, rather insipid.

135369. No. 4926. From Maimana, October 21, 1939. Altitude 3,000 feet. Fruit pear-shaped, 14 inches in length; rind conspicuously ribbed, gold brown, speckled with paler gold brown; flesh gold, $1\frac{1}{2}$ to $2\frac{1}{2}$ inches thick, sweet, and tender.

135370. No. 4929. From Karakul, October 22, 1939. Fruit 24 by 10 inches; rind battleship gray, shiny, faintly ribbed; flesh bright orange, of good quality, but not very sweet.

135371. No. 4947. From Akcha, October 26, 1939, at 1,500 feet altitude. Fruit globose with an exceptionally long neck (13 inches), 22 inches in length; rind gold buff with splashes of paler gold, faintly ribbed; flesh orange, sweet, and tender; seed cavity heart-shaped, 5 by 8 inches; an excellent variety.
